

Business Agnostic

Get ready to explore the boundless versatility of Conversation Frameworks™ from of Innovative Management Tools™. I'm excited to share with you how our frameworks transcend industry specifics and business stages, focusing on the core elements of People, Process, and Planning.

Unlike conventional tools confined to specific industries, our Conversation Frameworks break free from such limitations. Agnostic to industry, they adapt seamlessly to the unique challenges posed by different sectors.

Whether you're in Mergers & Acquisitions, startups, turnarounds, or specialized markets like Marketing Consultancies, our tools are your universal companion. With over 20 years of serving clients in over 15 industries, in companies from solopreneurs to over 90,000 employees in more than five countries, we feel like we can serve the needs of any company.

At the core of our Conversation Frameworks lies a holistic approach encapsulated in the Three Ps – People, Process, and Planning. Recognizing that people are the dynamic force within organizations, processes are ever-evolving, and planning is an ongoing necessity, our tools ensure a comprehensive solution that addresses the trifecta essential for success.
